

Dear Deli Counter,

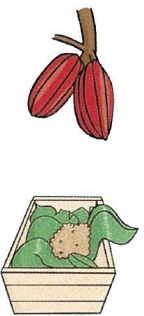

Are you sick of selling the same old, boring hot drinks? Well, I am writing to ask you if you could sell my mouth-watering hot chocolate. I see you already sell hot chocolate however this delectable delight will win new hearts everyday. Why not try it out?

My tantalizing drink is a new taste experience. This rich and creamy drink (which I bet you'll love) is topped with a sumptuous cloud of freshly whipped cream and is decorated with a few pinches of the finest chocolate then it becomes a treat not only for the mouth but also the eyes. Lightly sprinkled with flavouring, mint, cinnamon or chilli, to reach your desired taste.

One benefit of this luxurious drink is that it comes in different sizes. Larger cups for adults, smaller cups for children. It tastes heavenly, only £2.99!

Another reason is that this grand drink is very suitable for exhausted gym users. Pleasing them, they will have more energy. If they want extra, they can ask for some chilli, which will really pack a punch and get them going. Further, it is a healthy alternative to harmful, sugary energy drinks. It'll give the same energy boost but in a natural way through the production of endorphins (chemicals in the brain that increases energy and make you feel happy) from the chocolate.
