

Leadgate Positives : End of Year Parent / Carer Summer 2023 Survey Responses

A great school, all members of staff are helpful, friendly and approachable

Amazing school.. amazing teachers. Best decision we made was to move our children's school to leadgate!

Brilliant facilities, great teachers

The school has only 1 class of each children and I think this helps a lot as the teachers have more time to spend if your child needs that little bit extra support

The staff especially the head teacher care a great deal about the children and their education, it shows in the attitudes of most children.

Great support the children who need extra help. I like how the Headteacher gets involved with the children from both sites

Great close knit school, friendly and supportive

A great school, all members of staff are helpful, friendly and approachable

They have been extremely helpful in regards to my child's personal goals and learning. They have been patient and persistent and willing to help where other before have given up. They have greatly improved my child's learning, making effort to figure out their specific learning style and implementing teaching plans tailored specifically for them.

Communication and positive attitude

Extremely supportive and very helpful staff who want the best for the children.

I like the fact that the children are not just numbers, but the teachers and especially Mr Watson know everyone on a personal level.

Friendly and family feel. Children support each other and are happy

Lovely atmosphere within the nursery, he has loved it there and I'm sure will love reception

As soon as my child attended nursery, his learning difficulties were picked up on within weeks. From April 2022 to end of July 23, he now has 1:1 in place and EHCP in place and the school have encouraged and have helped meet his needs where needed. He has come along way since starting in himself with the help from the school, by putting the things in place for him and by providing him a safe, comfortable and place where he can learn at his pace not just at everyone else's pace. For this we thank you for being proactive and noticing and putting these things in place so quickly for my child ready to start reception and flourish at school in his education and social engagements. Well done SENCo team
