1. Aims

This policy aims to ensure that:

- Intimate care is carried out properly by staff, in line with any agreed plans
- The dignity, privacy, rights and wellbeing of every child are safeguarded
- Pupils who require intimate care are not discriminated against, in line with the Equality Act 2010
- Parents/carers are assured that staff are knowledgeable about intimate care and that the needs of their child are taken into account
- Staff carrying out intimate care work do so within guidelines (i.e. health and safety, manual handling, safeguarding protocols awareness) that protect themselves and the pupils involved

Intimate care refers to any care that involves toileting, washing, changing, touching or carrying out an invasive procedure to children's intimate personal areas.

2. Legislation and statutory guidance

This policy complies with the Department for Education (DfE) statutory safeguarding guidance:

- [Keeping Children Safe in Education](#)
- [Early Years Foundation Stage \(EYFS\) statutory framework](#)

3. Role of parents/carers

3.1 Seeking parental permission

For children who need routine intimate care (e.g. for nappy changes or toileting accidents), parents will be asked to:

- Sign a consent form
- Provide an adequate supply of necessary items (e.g. nappies, wipes, creams, changes of clothing)

For children who need routine or occasional intimate care (e.g. for toileting or toileting accidents), parents/carers will be asked to sign a consent form.

For children whose needs are more complex or who need particular support outside of what's covered in the consent form (if used), an intimate care plan will be created in discussion with parents/carers (see section 3.2 below).

Where there isn't an intimate care plan or parental consent for routine care in place, parental permission will be sought before performing any intimate care procedure.

If the school is unable to get in touch with parents/carers and an intimate care procedure urgently needs to be carried out, the procedure will be carried out to ensure the child is comfortable, and the school will inform parents/carers afterwards.

3.2 Creating an intimate care plan

Where an intimate care plan is required, it will be agreed in discussion between the school, parents/carers, the child (where possible) and any relevant health professionals.

The school will work with parents/carers and take their preferences on board to make the process of intimate care as comfortable as possible, dealing with needs sensitively and appropriately.

Subject to their age and understanding, the preferences of the child will also be taken into account. If there's doubt whether the child is able to make an informed choice, their parents/carers will be consulted.

The plan will be reviewed twice a year, even if no changes are necessary, and updated whenever there are changes to a pupil's needs.

See appendix 1 for a template plan.

3.3 Sharing information

The school will share information with parents/carers as needed to ensure a consistent approach. Parents/carers are expected to also share relevant information regarding any intimate matters as needed.

4. Role of staff

4.1 Which staff will be responsible

Any roles who may carry out intimate care will have this set out in their contract or job description. This includes teaching assistants.

No other staff members can be required to provide intimate care.

All staff at the Leadgate Primary School who carry out intimate care will have been subject to an enhanced Disclosure and Barring Service (DBS) with a barred list check before appointment, as well as other checks on their employment history.

The Headteacher & Early Years Leader will:

- Oversee the implementation of this policy
- Ensure staff receive appropriate training and support
- Oversee the development of individual intimate care plans
- Act as a point of contact for parents/carers/staff regarding intimate care concerns

4.2 How staff will be trained

Staff will receive:

- Training in the specific types of intimate care they undertake
- Regular safeguarding training
- If necessary, manual handling training that enables them to remain safe and for the pupil to have as much participation as possible

They will be familiar with:

- The control measures set out in risk assessments carried out by the school
- Hygiene and health and safety procedures

They will also be encouraged to seek further advice as needed.

5. Intimate care procedures

During nappy changes, toileting and any intimate care procedure, Primary School will balance children's privacy with safeguarding and support needs.

5.1 Staffing

All members of staff performing intimate care procedures have an enhanced DBS with barred list check.

- In general, 1 member of staff will be present with each child, except for circumstances where:
- 2 members of staff are needed to:
- Safely handle a child who needs to be assisted
- Use equipment such as a hoist
- There is a known risk of false allegations by the pupil

In cases where a pupil needs regular intimate care, where possible, the same member of staff will assist the same pupil each time they need support. We will train 2-3 members of staff per child to cover absences, emergencies and school trips. Where possible, we will ensure that these backup members of staff are also people known to the child.

At Leadgate Primary School male members of staff may be allocated to change female pupils or vice versa. The decision to allocate a member of staff of a different gender to the pupil will be discussed with the parents/carers and pupil, if appropriate.

5.2 Arrangements

Procedures will be carried out in the toilet cubicle or the disabled toilet.

Before going to perform intimate care on a child, the member of staff allocated to that child will inform another member of staff of where they are going, and leave doors open as much as privacy allows. Where possible, they should be within earshot of other members of staff, but the comfort and care of the child should be the priority when choosing a location.

When carrying out procedures, the school will provide staff with:

- as protective gloves
- cleaning supplies
- changing mats and bins.

For pupils needing routine intimate care, the school expects parents/carers to provide, when necessary, a good stock (at least a week's worth in advance) of necessary resources, such as nappies, underwear and/or a spare set of clothing.

Any soiled clothing will be contained securely, clearly labelled and discreetly returned to parents/carers at the end of the day. Intimate care will be recorded

Intimate care instances are recorded (including, for example, date/time, staff involved, any relevant observations such as skin integrity) and reported to parents/carers, if appropriate.

- Sensitive arrangements need to be put in place to allow children to toilet themselves at intervals to suit their needs and not at the demands of school routine or class requirements.
- Staff should encourage and promote independence and self-help skills as much as possible and give the child sufficient time to achieve. If handled correctly this can be the most important single self-help skill achieved, improving the child's quality of life, independence and self-esteem. If handled incorrectly it can severely inhibit an individual's inclusion in school and community.
- Only young children and those that are non-weight bearing should be changed in lying on a bench, older children should be cleaned and changed in standing or sitting if possible.
- Older children especially (from school year 3 onwards), should be encouraged and supported to achieve the highest levels of independence and autonomy that are possible, e.g. in cleaning, undressing and dressing themselves.
- At least 2 members of staff need to be trained in the procedures/routine required so that when the key worker is absent for any reason the child is not compromised with regards to their care.
- Only key staff members should be aware of the routine and procedures. Confidentiality and the child's dignity should be respected at all times with regards to sharing of information between staff.
- The designated area should not compromise the safety of the child or member of staff.
- All staff should ensure that the designated area should be hygienic and warm. It should be accessible and easy to reach.
- Two members of staff may be required for more complex type of care procedures; this will need to be assessed on an individual basis in joint consultation with nursing teams, health colleagues and OT for SEND Team.
- However, it is important to note that no unnecessary staff should be present and no other staff should interrupt the care procedure.
- All adults carrying out intimate care or toileting tasks should be employees of the school and enhanced DBS checks should already be in place to ensure the safety of children.
- All staff employed by the school must act in a professional manner at all times.
- Students on work placement, voluntary staff or other parents working at the school/setting should not attend to toileting or intimate care tasks
- In special circumstances when a child with highly complex needs is admitted to the school, the appropriate health, SEND Team professionals and school SENCO need to be involved in the planning as there may be resource implications with regards to staffing and facilities. If specialist equipment or adaptations are required additional resources from the school's delegated SEN budget.
- It is not possible to have 2 members of staff present at each intimate care incident and therefore all staff undertaking such action will be required to record their actions in the Intimate care log after each occasion.
- Procedures will be carried out in the appropriate class area toilets.
- Any soiled clothing will be contained securely, clearly labelled, and discreetly returned to parents/carers at the end of the day.

5.3 Concerns about safeguarding

If a member of staff carrying out intimate care has concerns about physical changes in a child's appearance (e.g. marks, bruises, soreness), they will report this using the school's safeguarding procedures.

Any concerns about the safety or welfare of a pupil will be reported immediately to the local authority's children's social care team.

If a child is hurt accidentally or there is an issue when carrying out the procedure, the staff member will report the incident immediately to the Headteacher.

If a child makes an allegation against a member of staff, the responsibility for intimate care of that child will be given to another member of staff as quickly as possible and the allegation will be investigated according to the school's safeguarding procedures.

Where the school notices an increasing pattern of soiling instances, it will first hold a meeting with parents/carers and with any other relevant individuals, such as medical professionals involved with the child to discuss why this might be occurring, and how to help the child. If the pattern continues, the school's designated safeguarding lead (DSL) will be notified. If there is other evidence which indicates a safeguarding concern, the DSL may contact the local authority designated officer (LADO), who will consider whether there is a safeguarding issue.

5.4 Specific procedures for nappy changing in nursery/early years

- Disposable gloves and aprons are worn for all nappy changing procedures.
- Hands are washed thoroughly before and after each nappy change, in line with infection control guidance.
- Nappy changing takes place in the designated EYFS toilet/changing area to ensure privacy and hygiene.
- Soiled nappies and wipes are placed in a nappy sack, securely tied, and disposed of in the sanitary bin.
- Daily records of each nappy change are completed and stored securely in line with GDPR requirements.

5.5 Specific procedures for toileting accidents

Where pupils are starting school without having been toilet-trained, staff will work with the pupil's parents/carers to agree on a care plan.

The school will record the number of soiling incidents in school, and liaise with the pupil's parent/carers about:

- The outcomes of relevant medical appointments attended by the child
- Whether there is a change in the pattern of soiling incidents, at home or at school
- Whether the current plan is working

5.6 Management of menstrual care

All staff will be sensitive to the fact that:

- Girls at our school may start to menstruate
- While there is no shame or stigma attached to this, those pupils may wish to deal with it discreetly

The school will offer sensitive and practical information to pupils about:

- Where the sanitary products are
- How to use and dispose of them correctly

Period products available to pupils can be found in the single toilets.

Staff will not directly assist with the physical act of changing sanitary products unless specifically requested by the child and agreed with parents/carers in an individual care plan due to specific needs.

Age-appropriate education on puberty and menstrual hygiene will be provided as part of the PSHE curriculum.

6. Monitoring arrangements

This policy will be reviewed by the Headteacher every year. At every review, the policy will be approved by the curriculum and standards

7. Links with other policies

This policy links to the following policies and procedures:

- Accessibility plan
- Child protection and safeguarding
- Health and safety
- SEND
- Supporting pupils with medical conditions
- PSHE Policy

Appendix 1: template intimate care plan

PARENTS/CARERS	
Name of child	
Type of intimate care needed	
How often care will be given	
What training staff will be given	
Where care will take place	
What resources and equipment will be used, and who will provide them	
How procedures will differ if taking place on a trip or outing	
Name of senior member of staff responsible for ensuring care is carried out according to the intimate care plan	
Name of parent or carer	
Relationship to child	
Signature of parent or carer	
Date	
CHILD	
How many members of staff would you like to help?	
Do you mind having a chat when you are being changed or washed?	
Signature of child	
Date	

This plan will be reviewed twice a year.
